LOFlow Solutions

# BRAND IDENTITY SYSTEM

LOFlow SOLUTIONS

Version 1.0

2026

# BRAND OVERVIEW

An introduction to the brand, including its mission, vision, and core values.

01

# MISSION

**LOFlow Solutions empowers mortgage professionals to Own Their Stack.**

We build mortgage systems that scale by replacing bloated software subscriptions with customizable, high-performing solutions that put sales leaders back in control, cut wasted spend, and accelerate revenue growth.

# VISION

To redefine how mortgage organizations operate by creating scalable, customizable systems that eliminate inefficiency and unlock sustainable revenue growth.

# CORE VALUES

### Clarity Over Complexity

We keep systems simple, lean, and easy to own.

### Unbiased & Unopinionated

We optimize what works, not what’s popular.

### Transparency Always

No gatekeeping—just clear, open playbooks.

### Ownership Through Empowerment

Tech should work for you, not trap you.

### Crafted, Not Copied

Every build is tailored, never cookie-cutter.

### Efficiency That Scales

Growth should be streamlined, not bloated.

### Partnership, Not Vendor-ship

We build alongside you, not over you.

# LOGO

Introduces the primary visual symbol that represents the brand and serves as its main identifier.

02

# LOGO

The LOFlow Solutions logo represents structure, efficiency, and collaboration in modern mortgage systems. The stacked horizontal lines symbolize streamlined workflows and scalable processes, while the figures above represent the people and teams supported by the platform. Together, these elements reflect the brand’s focus on organized, people-centered technology.

# LOGO MARK

The logo mark is a simplified visual representation of the brand, designed to be recognizable and versatile across different applications. It can be used independently or alongside the primary logo to reinforce brand recognition.

# TYPOGRAPHY

The typography system is designed to support the brand’s visual identity by creating a clear hierarchy and ensuring readability across different applications.
